

GROUP 4: ASSETS WORTH LESS THAN \$2,200

Workshop 3: Our Choices

Sunday

I am 17 years old. I live in Kataturo, Namibia and am HIV positive. The virus was passed on from my mother and I only found out when I was 13. Over the years I have had to stay strong to tackle the challenges. We have weekly check-ups with the local hospital staff and they're always really supportive. I want to help young people living with HIV/AIDS and work towards finding a cure.

[See Sunday's video here](#)

"I am part of a teen club where I have found new confidence. It makes me feel less alone. We empower one another to lead a life of dignity."

Namibia?

How does living with HIV/AIDS affect Sunday's daily life?

What is UNICEF doing to prevent the transmission of HIV/AIDS from mother to child? Are we making steps towards an AIDS-free generation?

How can Sunday support other young people living with HIV/AIDS?
